

Jeyamani M

Full Stack Developer

Passionate Full Stack Developer with hands-on experience building end-to-end web applications using React, Python, Fastapi and MySQL databases. Skilled in crafting responsive interfaces with Tailwind CSS, designing RESTful APIs, and managing state efficiently. Eager to apply frontend precision and backend logic to a fast-paced engineering team.

Education

B.E. in Electrical and Electronics Engineering (EEE)

Government College of Engineering, Thanjavur | 2022 - 2026

Higher Secondary Certificate (HSC)

Government Higher Secondary School, Pallakal Pothukudi | Score: 70.5%

SSLC

Government Higher Secondary School, Pallakal Pothukudi | Score: 66%

Projects

House Price Prediction

Built a full-stack ML app predicting house prices from 10+ property features (area, bedrooms, bathrooms, parking, furnishing status, etc.), achieving an R-squared score of 0.60. Built with React (frontend) and FastAPI (backend); MAE ~1,047,188.92.

Instagram Clone

Built a front-end Instagram clone with profile, feed, and story UI, rendering content dynamically from JSON data with a fully responsive layout. Built using React and Tailwind CSS.

Movie Review

Built a movie browsing application displaying trailers, ratings, and categorized movie listings. Integrated an external movie API using JavaScript fetch to pull real-time movie data with a netflix-style browser.
